Over 5 days, you will create a wire armature, sculpt with papier-mâché, draw, paint and collage to bring your artwork alive. During breaks you'll hang out at the wading pool, playground or pizza oven. On the final day, you'll introduce your creations to the world!

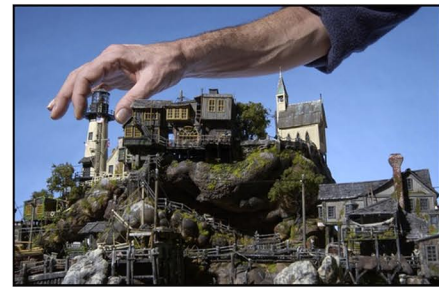

Papier-Mâché Camp at Dufferin Grove Park

Back for it's 10th Year!!!

Miniature Worlds

Have you ever been like Horton & heard a Who?
If you have, then this is the camp for you. The little folk have taken up residence in Dufferin Grove Park and their king tells Erin Robertson that they need a town. Won't you help them?

Erin Robertson has been an instructor at the Ottawa School of Art since 1994, where she teaches all age groups including diploma drawing, portraiture, sculpture and painting. She has facilitated work-shops for Ottawa Carleton School Board, the Ottawa School of Dance, and the Museum of Civilization.
